

## Child Care

### Description:

I provide quality childcare in a loving home for children ages 6 weeks to 4 years of age. Children learn through play and I provide many opportunities for them to "discover" things about the world that they live. Children are very bright and need to be treated as social little individuals who have much to share. Each child brings a new and exciting personality to my daycare and I try not to stifle their personality, but to nurture and help them socialize and guide them in areas that they need assistance activities.

As a family child care provider, my goal is to provide a safe and happy place for children where they can learn and grow physically, emotionally, intellectually and socially at their own pace. I believe children learn through play and benefit from a structured yet flexible schedule. Activities will be offered which stimulate sensory motor development, language development and social interaction. The development of strong self-esteem is also a major goal.
